LOCATION OF BRIDGE INDEFINITE

Soundings and Feasibility Will Deter
mine Between Hennepin and
Peoria Avenues.

At a meeting between Mayor Henry Schmidt and Commissioners Dana, Dysart, VanBibber and Smith and the road and bridge committee of the Lee county board of supervisors, namely, Messrs. Buckaloo, Trostle and Mannion, together with the chairman of the board, John M. Sterling, States Attorney Harry Edwards and County Superintendent of Highways L. B. Neighbour, held in States Attorney Edwards' office yesterday, the proposition of a new bridge across Rock river at Dixon was discussed. The committee from the county board as well as their attorney, Harry Edwards, agreed that if the city fulfills all the terms required by law, such as voting bonds to pay the city's half, etc., it will be up to the county to pay the other half without question.

In order that the preliminary work on the bridge might be accelerated, the city officials requested that County Superintendent Neighbour be instructed to commence his work of preparing estimates and plans and specifications of the new bridge at once. This work he would have to do sooner or later anyway, according to law, all present agreed that as a matter of expediency it would be wise for him to start at once. The road and bridge committee agreed to recommend this action to the board of supervisors at the March meeting.

The question of where to locate the bridge came up often, and it appeared to be the consensus of opinion that of the two proposed sites, Peoria avenue and Hennepin avenue, the one that afforded the best soundings and most practical possibilities for bridge building should be chosen.

ACCIDENT TO PRESS DELAYS THE ISSUE

Soon after the big press on which the Evening Telegraph is printed was started last evening, there was an ominous "bang" and a tooth in the main driving spindle on the main shaft was ripped out. The next one to it cracked from the strain. That's why Dixon people did not read their Telegraph until pretty late in the evening, for it was after 7 o'clock when the damage was repaired and the press started again.

It was necessary to dismount one end of the press in order to get the broken cog wheel out and a machinist did a considerable amount of drilling and tapping and welding and brazing an drilling and the repaired part was fitted back onto the press with feverish haste. The mechanical force have been stepping lightly about the press room and hoping the replaced tooth will hold until a new wheel, which has been ordered by wire, arrives.

The carrier boys were sent home for their supper after the break occurred and came back and worked faithfully until their papers were delivered.

Wa-Tah-Wa-So, Indian Princess, On Program At Elks Club Friday Eve.

An entertainment which promises to be of far more than ordinary merit will be given at the Elks' club Friday evening by three of the Benson Entertainers of Chicago, the affair being one of the series of entertainments arranged by the House committee for members of the lodge and their families for the present season.

The feature of the coming affair will be Wa-Tah-Wa-So, Indian Princess, who will give a recital of Indian folk songs and legends. Wa-Tah-Wa-So is the daughter of Chief Nikola of the ancient Penobscot tribe, and she delineates the pure Indian songs, folk tales and legends only. She has the highest type of beauty and grace known to the blood of our aborigines, complemented by an education such as modern American girls of refinement and culture could aspire to. She wears the romantic garments and decorations of the Penobscots and has all the knowledge and understanding of the pathos, comedy, art and heart of the New England Indian tribes, the highest development of the red man of history and story.

Other entertainers Friday evening will be Delbert Chute, a pianist of ability; Charles Webster Hitchcock, eminent monologist and impersonator, and Franz Meisel, character violinist. The program for the evening is: Piano—Overtures

DOLLAR DAY IS AN OPPORTUNITY
THAT CANNOT BE
OVERLOOKED.

IT WILL BE BUYER'S DAY

Bargain Hunters Will Be Here From
All Over This Territory—
Get Your Share.

Did you read every ad in the Dollar Day edition of the Dixon Telegraph yesterday? We feel assured you did, for you must realize that it means the actual saving of many dollars to you if you take advantage of the bargains the merchants of Dixon will offer to you next Saturday, all day and evening.

The coming Dollar Day will surpass all previous Dollar Day records in Dixon we are confident, not only in attendance but in the money saving values it will offer the people who trade in Dixon stores on that day.

The man or woman who can afford to overlook bargains at the present time is fortunate indeed, and scarce. This condition is certainly true when the bargains offered are bargains in articles that you will absolutely have to buy soon. When you have an opportunity to buy food and clothing and other necessities of life at a price lower than usual it is up to you to buy them, even if it does strain your pocketbook a bit.

Look over the ads you will see in the Evening Telegraph this week and see what a saving you can accomplish by making a little outlay on Saturday. And if the ads do not satisfy you on this point, go to the stores on Saturday, and go early, before the bargains are sold out and see for yourself.

AMENDS MARRIAGE LICENSE

Paper Taken Out in Kane County Has
"Cook County" Written in.

AURORA, ILL., Feb. 7. Old enough to know better John Norton, of Chicago, aged sixty, and Ida McCuen of Alexandria, Ind., forty-nine, got a Kane county license January 16 and were married in Chicago, County of Cook. Some careful person amended the license Mr. Norton bought at Geneva, scratching out the word Kane and writing in Cook so that the marriage form read: "Cook county."

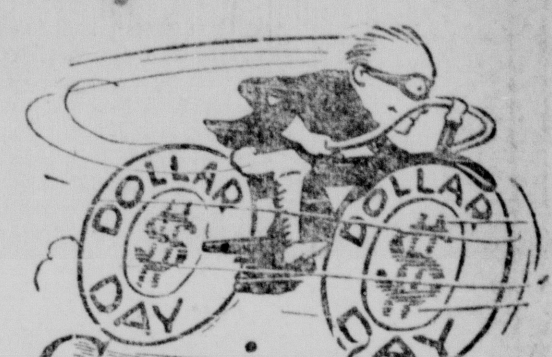

This was disclosed when the marriage license was returned to the clerk of Kane county by the Rev. F. L. Von Meske, Chicago, who performed the marriage ceremony.

DIVORCE CHURCH AND STATE

(By United Press)
Montevideo, Feb. 6.—Congress is considering a constitutional amendment providing for disestablishment of the Roman Catholic church as a state institution in Uruguay. The amendment, if adopted, will deprive the church of future government support, but will leave it in control of all properties it now holds, placing all religious nominations upon an equality and exempting them from taxation.

LARGE ATTENDANCE AT FARRAND SERVICE

The funeral services for Ernest W. Farrand were held Tuesday afternoon at the home, corner of Seventh street and Hennepin avenue, with Rev. S. S. Cryer of El Paso in charge. Burial was in Oakwood cemetery.

The attendance was extremely large. Hundreds of friends came to pay their respects to the memory of the young man who has been called so early in life and who was loved by everyone he knew. Ernest Farrand's many beautiful traits of character, and his attractive, lovable personality made him devoted friends on every side. His devotion to his parents makes his loss the harder to bear. The flowers sent to the home were a beautiful testimonial of the friendship of Dixon people for the deceased and his family.

The pall bearers were: W. W. Gilbert, Wm. Trein, Judge J. B. Crabtree, John Davies, Atty George Dixon and Bert Fowler.

AMBITIOUS LEGISLATOR INTRODUCED BILL TO CHANGE
GATHERING PLACE.

DEMOCRATS GET PATRONAGE

(Associated Press)
Springfield, Feb. 7.—Bills introduced in the House today:

By Clottenberg, to prohibit women smoking tobacco in any form in cafes or public places.

By McGloin, that hereafter the general assembly shall meet in Chicago.

By Placke, to amend the act to organize municipal banks.

By Education Committee, bill validating existing community high schools, jeopardized by decision of supreme court.

The democratic fight for patronage ended today when a majority of the senators agreed to allow the minority to name three stenographers, two janitors, two pages and an assistant clerk. The democrats then voted for the bills appropriating funds for salaries of officials and employees of the assembly.

DANIEL HAYES CO. TO HANDLE
NORTHERN ILLINOIS FROM
DIXON.

The Daniel Hayes Company of Idaho, a land selling corporation, has decided to open an office in Dixon and make this city its headquarters for the handling of its business in Northern Illinois. A number of Dixon people are financially interested in this concern, which has been doing business in Rock Island county, Illinois, for something like 40 years.

At present the company has a big land project in Idaho, where they are going to put 40,000 acres of land under irrigation. The company has done much toward developing the natural resources of the west and has placed thousands of western home seekers on desirable land.

SENATOR WORKS PROTESTS AGAINST BREAK WITH GERMANY--ASSERTS UNITED STATES HAS NOT BEEN NEUTRAL--NORWAY NOT WITH AMERICA

U.S. POLICY IS THAT GERMAN ACT ILLEGAL

HOLDS FOR INALIENABLE RIGHT
OF AMERICANS TO TRAVEL
THE HIGH SEAS.

NEXT MOVE WITHOUT ANY NOTE

If Government Finds More Action Is
Necessary Germany Will
Get No Word.

(Associated Press)
Washington, Feb. 7.—Confirmation is being sought by the state department today of reports that Germany will hold Ambassador Gerard until assured that good treatment will be accorded Count von Bernstorff by Washington.

Officials are hopeful that Great Britain's promise of safe conduct for the German ambassador and his staff will remove all possible intention Germany may have of holding Ambassador Gerard.

STATE DEPARTMENT ASKS FOR PASSAGE

A dispatch from New York says the formal request of the state department that the Scandinavian-American liner Frederick VIII, transport Bernstorff and his suit to Europe has been forwarded to the line's offices in Copenhagen. No reply has been received, it is stated.

ALL DEPARTMENTS PREPARE FOR ANYTHING

Congress and all departments of the government are progressing in their preparations for any eventuality. The next step, it is announced, if one becomes necessary, will be taken without any further communication to Germany.

Entente diplomats are surprised at the preparations which are being made, and fear a declaration of war would stop the export of munitions.

CONFEDERATE DAUGHTERS PLEDGE UNITED SUPPORT

The United Daughters of the Confederacy tendered Wilson the support and services of 100,000 members. The president went golfing this afternoon.

REPORT GERARD HAS REACHED BERNE, SWITZERLAND

Ambassador Willard at Madrid reported to the state department today that he had received a dispatch from Gerard, sent from Berne, Switzerland but gave no details.

From sources in Germany the state department learned that Germany actually considered holding Gerard as a hostage until advice was received from Washington, detailing the arrangements for the safe departure of Bernstorff. Germany's contemplated action is believed to have been more in the nature of a move to compel the safe return of Bernstorff through the allied blockade than against Gerard or the United States.

GOVERNMENT POLICY IS FREEDOM OF THE SEA

The American liner St. Louis will not be given a convoy if her owners decide to sail her into the submarine zone. The government policy is that Americans have an inalienable right to traverse the seas, that the German blockade is illegal and that any sinking of American ships in contravention of law will lead to immediate hostilities.

The Swiss minister here has been instructed by his government to take over German interests in the United States.

ADMINISTRATION CAREFUL RIGHTS ARE RESPECTED

In line with its policy of doing nothing to force strained relations with Germany, it is officially reiterated that the administration is taking extra care to see that no right of any foreign government or foreign property is violated.

The government has seized no German ships nor has it claimed title to them. The crews were removed merely to prevent obstruction of navigation through possible sinking of the vessels.

Opening Of British Parliament Today Minus Pomp And Grandeur Of Ages

By ED. L. KEEN,
(United Press Staff Correspondent)

London, Feb. 7.—The seventh session of the second parliament of his majesty George the Fifth couldn't have been properly launched today if cellars and vaults at Westminster hadn't been previously carefully searched for possible initiators of Guy Fawkes and his fellow conspirators in "gunpowder, treason and plot."

So, at 9 a. m. today, just as they have done regularly for more than 300 years on the opening day of each new session, a squad of gray bearded veterans, clad in their picturesque Elizabethan uniforms of scarlet and gold and armed with ancient lanterns began slowly nosing around through the communicating trenches and dugouts beneath the legislative chambers.

Not until these "Beefeaters" as the Yeomen of the Guard are popularly termed, had formally reported to the sergeant-at-arms of the Lords and Commons that diligent search had failed to disclose the presence of any lurking assassin, gunpowder, German spies, high explosive bombs, subaqua-gates or poison gas tanks, and this information had been ceremoniously conveyed to Buckingham Palace, did the King and Queen proceed to their journey to the House of Parliament.

Some precedents have been modified by war, the King appearing in khaki instead of dress uniform. Their majesties rode in the usual state coach but it was drawn by six black horses instead of the eight cream-colored Hanoverians used on such occasions. There wasn't the customarily large outpouring of the populace on the route.

GOVERNMENT KNEW OF DANGER

BERLIN PAPERS ARE JOYFUL

Find Cause To Rejoice In Switzerland's Refusal To Join the United States.

(Associated Press)
Washington, Feb. 7.—Asserting the United States had not been neutral as a nation, and saying that if it had been the country would never have been brought to a breach with Germany, Senator Works of California, republican, protested today in the senate against the action of the president in severing diplomatic relations with Germany.

He did not question the faith of the president, and branded the Lusitania case as a "cruel and unjust wrong." "But," he said, "it would be well to remember how far we ourselves, by our course of action, contributed to this loss of American lives."

OUR GOVERNMENT KNEW OF CONDITIONS

"Our government knew what had been threatened, but we allowed the ship to sail," he said, "carrying American citizens into the jaws of death. Germany was fighting for her life. So were England, France and the other belligerents. What could have been expected under such circumstances? What moral right had we to tempt her to this fearful act by this threat against the lives of her people?"

The Senator said that both Germany and Great Britain had violated the rights of Americans.

When he concluded, Stone's resolution to have the senate endorse the break with Germany was taken up for action.

BERLIN PAPERS GIVE MUCH SPACE TO U. S. NEWS

Berlin, Feb. 7.—The afternoon papers devote columns to news from the United States. Nearly all take occasion to reiterate the allegation that Wilson's every act has been induced by insistence that Americans be allowed to travel unendangered on entente ships. The papers are enthusiastic over the prospects that Switzerland and other neutrals will not fall in line behind Wilson.

Washington, Feb. 7.—Information that Switzerland will not adopt President Wilson's suggestion, that, in the interest of world peace, other neutrals follow the lead of the United States and break off diplomatic relations with Germany, was received here. So far as is known this is the first response. Spain's taking over of American interests in Germany and Switzerland's similar action for German interests here, are interpreted as removing both these neutrals from participation in the break in relations.

Spain Enters Protest.
Madrid, Feb. 7.—Spain made formal protest to Germany against the unlimited submarine campaign inaugurated Feb. 1 in a note handed to the German ambassador here. Action in sending a note of protest precludes an immediate break of relations between

NAVIN SAYS HE WILL NOT BE CLUBBED INTO GRANTING LARGER SALARIES.

SAYS BASE BALL WILL GO ON

(Associated Press)
Detroit, Feb. 7.—Frank J. Navin, president of the Detroit Americans, has declared himself against the Base Ball Players' Fraternity, whose president, David L. Fultz, has threatened to call a general strike of the ball players.

Navin asserts that he will not be "clubbed" into granting larger salaries than he thinks are deserved; neither will he advance the figures of a single contract that has already been sent out. The Detroit club executive has assumed the attitude that the players can take them or leave them alone, as they see fit.

"I will not give the fraternity the satisfaction of saying that it forced me to terms," said Navin. "In some cases I might have compromised with players who are asking for advances if it hadn't been for this strike talk, but now I'm going to stand pat."

"I will not debate the issue with anybody. Sooner or later somebody will have to go to the mat with the fraternity if Fultz proposes to use it to force higher salaries from the club owners. The question might as well be brought to an issue at once."

Navin said that the Detroit club, with the possible exception of Oscar Vitt, third baseman, will sign their contracts and report. Three candidates are under consideration to fill Vitt's place, Navin said.

"We probably will miss Vitt," he said, "but baseball will stand up under the shock. Even if Ty Cobb decided to quit the game would go on. Nobody is indispensable."

MADE POOR RECORD; MAY QUIT BASE BALL

GEORGE CUTSHAW OF BROOKLYN DODGERS SAID TO HAVE MADE UP HIS MIND

By H. C. Hamilton

New York, Feb. 6.—From Brooklyn comes the word that George Cutshaw, second baseman of the Dodgers, has decided to quit baseball and go to work during the summer. No definite reason for Cutshaw's determination was given in the letter which reached Charles, but he has let it be known that no baseball magnate—Ebbetts not barred—can cut his contract salary and get away with it. Cutshaw is one of the eleven Dodgers who saw the shine taken off several hundred gold dollars a season, but he is only one who has taken the stand that it's better not to play at all than for reduced figure. George didn't have such a whiff of a season last year. His work most of the summer was up to his ordinary style, which is very good baseball. But when the world's series came across George didn't. He was charged with the loss of at least two ball games in that memorable farce, and his batting simply wasn't there. Cutshaw was deeply hurt by the fact that he was held responsible for losses in the big games. He realized that he hadn't played as a ball player of his class might have been expected to, and he wended his way from Brooklyn with a weight of woe over his heart. This may have more than a little to do with his sudden determination to retire. Cutshaw has been known for a long time and has been praised for his aggressiveness and nerve in Brooklyn. Consequently, when he fell down on his nerve in Boston the praise got a little reverse-english. That hurt Cutshaw. He had the name of driving in more runs than any member of the Brooklyn club, but he didn't do it in the world's series and that hurt. Although he has had a winter to think it over, his friends insist that he has not forgotten the bad work credited to him in the big series.

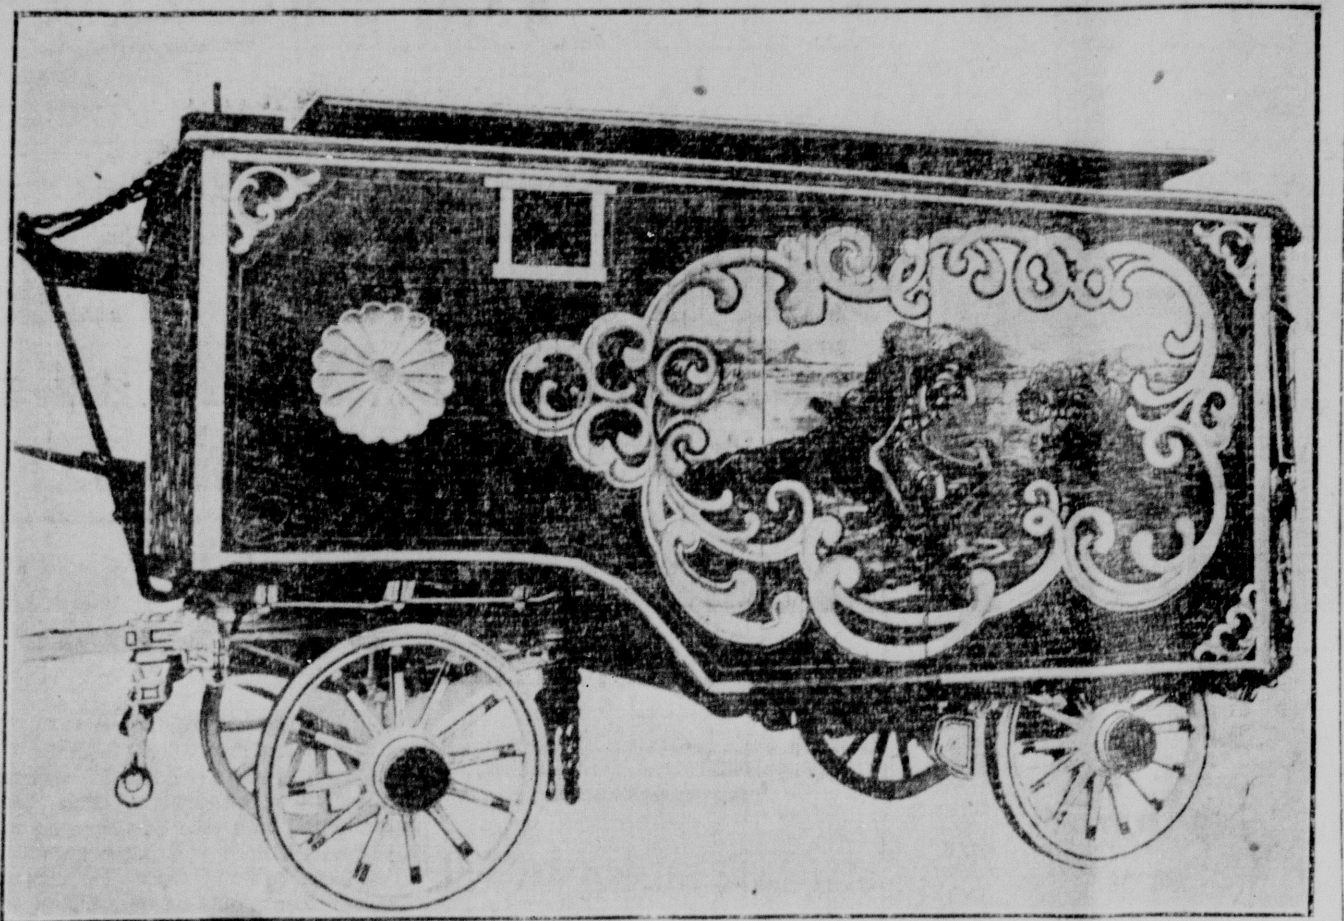

Isadore Federbusch of New York was in Dixon on business Tuesday.

COOP & LENTS' CIRCUS TO START COMING SEASON

Work progresses satisfactorily at the winter quarters of Coop and Lents' circus in this city and the former feed shed occupied for the purpose is the scene of bustling activity.

The wagons are being rebuilt under the direction of E. E. Payton with two assistants, and the painting is in charge of Artist Mari Goodwin who is turning out some beautiful work. A photograph taken the other day of one of the first wagons to be turned out under their direction is reproduced in another column.

The harness shop is in charge of Frank Schoener, who takes great pride in having the brass trimmings of these specially made harnesses in the very best of condition for the show's opening in Dixon in April.

B. Wilson is steward and has thirty regular visitors in his dining room three times daily.

Ed. Broberg is looking after the baggage stock and Harry Clausman is in charge of the tag stock. Ralph Hinman is taking care of the animals, some of which are in winter quarters at present. Ben Snow is engaged in making new canvas covers for all the wagons.

For 1917 has been almost completed under the direction of Mr. Adkins. It

Ralph W. Houser will arrive from Chicago tomorrow to take personal charge of the training of the ring stock for the coming season. Several new horses have been purchased which will be trained for menage acts. Also several new pony acts will have their place on the program in the coming season.

General Agent Lon B. Williams was a visitor at winter quarters several days last week, and is now in Chicago arranging the route of the show for the summer. Coop and Lents are fortunate in obtaining the services of Mr. Williams, who has been general agent with Gentry Bros. for twenty years and is one of the best versed circus men in the United States.

Bert Andrus, who is to have charge of the advance cars, is now in Dixon organizing his force, which will consist of about twenty men, to bill and advertise the circus.

General Manager J. H. Adkins left Monday on a southern business trip to look after the animals now in training in southern quarters. These animals will be brought to Dixon early in April.

The general program of the circus

will be a program of over two hours' duration and will include some of the stars of the circus world. Conspicuous among these artists will be the Davenportos, who come from a family of circus riders; A. G. Lowande, who is a rider of equal reputation; the Guice troupe of riders who have toured with the largest circuses in the world; Joe Greer's wild west performance including fancy roping, bucking horses, and pony express exhibitions; Hayden LeLonde and his troupe of wire artists; the Nelson troupe in iron jaw work; the Webber and Kafka troupe of double trapeze artists; Gray's posing horses; Hassan, troupe of Arabs, ten in number, will be the feature tumbler; clowns of note will furnish the amusement; Coop and Lents' own troupe of high school horses are among the best in the world as are also their troupe of thirty-one trained ponies.

The parade will be a mile long and will include four bands, calliope and electrician.

The two side shows will be in charge of W. H. McFarland, one of the oldest and best known men in the country in this feature of the circus, hold Goods.

EACH LEAGUE WILL HAVE NEW MANAGER

BARRY OF BOSTON AMERICANS AND MITCHELL OF CHICAGO CUBS NEW LEADERS

BARRY IN SIX WORLD SERIES

New Pilot of World's Champions Will Be Only Playing Leader in Entire League.

(Associated Press)

St. Louis, Feb. 7.—Two new managers will make their debut in the major leagues this season. The American league will present Jack Barry as the leader of the Boston club. He will attempt to fill Bill Carrigan's shoes and lead the world's champions to another pennant. Barry will be the only playing manager in the league.

In the National league Fred Mitchell will handle the Chicago club. Mitchell will direct his club from the bench.

As a player Barry ranks with the best in the league. He has the distinction of being the only player who has taken part in six world's championship series. Four of these were while he was a member of the Philadelphia Americans and two with the club which he is to lead during the coming season.

Mitchell is a veteran. He was a pitcher and later a catcher some 17 years ago when he broke into the game. He acted as coach and assistant to Manager George Stallings before going to Chicago.

The other managers of the National league who are veterans are John J. McGraw of New York and Stallings of Boston. In the American league the veterans are Hugh Jennings of Detroit, Clark Griffith of Washington and Connie Mack of Philadelphia. Miller Huggins took hold of the St. Louis Nationals in 1913 and Bill Donovan piloted the New York Americans and Wilbert Robinson the Brooklyn Nationals a year later.

The American league has two managers who will start their third season as leaders. They are Lee Fohl of Cleveland and Clarence Rowland of Chicago. Pat Moran of the Philadelphia Nationals also is on his third lap. Fielder Jones, who piloted the St. Louis Americans and James J. Callahan, who lead the Pittsburgh Nationals, are classed as among the later leaders, having received their appointments in 1916. Both, however, have had previous experience as manager. Christy Mathewson also became a manager last year when he went to Cincinnati, after years of service under McGraw.

The clubs with their managers for 1917, are:

American
Chicago, Clarence H. Rowland
Boston, John F. Barry
New York, Wm. A. Donovan
Detroit, Hugh Jennings
Washington, Clark Griffith
Cleveland, Lee Fohl
Philadelphia, Connie Mack
St. Louis, Fielder Jones.

RUSSIA TO RECALL

(By United Press)

New York, Feb. 7.—Weary, it is said of paying high salaries and getting low efficiency from his staff of 250 munition buyers with headquarters in New York, Czar Nicholas is expected to order most of them home within the next few days and put them in the trenches at the front. The Russian government was extremely displeased with the loss of millions of dollars in the Black Sea explosion and Kingsland explosions.

"WEATHER OR NO"

PERUNA in Your Home

A housewife must give the first aid in colds, coughs and other ailments. Her promptness in applying the remedy often saves a serious illness. Her experience with remedies has led her to know that PERUNA is always reliable, that she should have it on hand for the immediate treatment of coughs and colds, and that it is always to her.

The Family Safeguard

The experience of one woman, given herewith, is typical of thousands of letters that reach the Peruna Company from grateful friends who have found their homes incomplete, and their family safety in danger without PERUNA.

but had not been very serious until recently. Since I have taken Peruna the drooping in my throat has discontinued, and my head and nose are not so stuffed up in the morning. I am pleased with the results, and shall continue to use it until I am entirely rid of catarrh. I heartily recommend it as a household medicine. What it does for her it is ready to do for you.

Colds and Catarrh

The great weight of testimony that has accumulated in the 44 years that PERUNA has been on the market proves it, beyond question, to be the reliable family remedy, ever ready to take, preventing the serious effects of colds, coughs, grip and derangements of the digestive organs. This proof is published from time to time and many families have profited by it.

Remember you can obtain PERUNA in tablet form for your convenience. Carry it with you and be fortified against sudden attacks. The Peruna Company, Columbus, Ohio

GOOD WILL IS INCREASING.

It has been said there's no such thing as the golden rule in business—that it's a question of doing the other fellow, and doing it first.

Those who have quoted this saying of David Harum thought it clever. It sounds smart and there is a type of men who think it is smart. But they have another guess coming.

It would be too much to say that the golden rule—do unto others as you would have them do unto you—dominates business life. But there's more kindness and manhood and square dealing in business than most of us think.

For instance: Some time ago a big manufacturing plant burned out—just as the season was about to begin. There wasn't time to secure another adequate building.

But the chief rival of this concern notified its competitor it had a building not in use and to which the unfortunate firm was welcome.

This brought immediate relief and the business went right on without interruption.

And the firm that had been so generously assisted by its rival, with equal generosity purchased pages of advertising matter in trade journals telling about this spirit of the golden rule which had been exhibited in such a practical fashion.

Don't you suppose this entire transaction made a fine impression upon the trade and that it brought to the surface the better instinct of all who heard or read about it?

Don't be deceived into believing that the comparatively few sharks in business life are typical. There's more downright good-fellowship among mass of men than we know.

It isn't preached about or exploited, nor is there a pietistic attitude assumed by those who might be credited with the real stuff—but it's there and the rest of us may be glad.

Good-will among men is increasing. And it's a very poor observer of the tendency of the times who doesn't see it.

THE SPIRIT OF ENTERPRISE.

It is an interesting problem in business psychology to determine why people trade at one store rather than another. Prices, location, quality, all are vital, but not the whole thing.

The wide-awake manager of a real store comes down town full of the spirit of confidence and enterprise. He does not ask to be sure of two dollars back before spending one. "Start something," he calls out to the boys and the place soon radiates his pushing personality.

His first move is to spread the news. He finds this or that line in his store where he got unusual values, or something he wants to turn into cash. He realizes that the public will never know what he can do for them unless he takes pains and goes to expense to inform them. By persistent advertising he gives them the news of his store. Soon the impression is abroad that it is a store where there is "something doing."

The American people have little use for inactivity. They care little for the business man who sits down and waits for opportunity to knock and business to come. They will go out of their way to trade with a man who seeks their trade and shows a spirit of push.

The one way to convey this impression is to advertise. Circulars don't give it to any large extent. They are apt to be thrown away unread. While a circular reposes all crumpled up in the waste basket, the newspaper remains on the living room table until the whole family has read it.

Solicitation from door to door if done by a tactful and competent man, gives an impression of enterprise. But advertising is 20 times cheaper and quite as efficient. It spreads news all over and makes a man seem like a pusher instead of a waiter.

TO HELP OUR ROADS.

Illinois, according to Associated Press reports from Washington, is about to receive almost half a million dollars from the government for good roads during 1917-18.

This sum is based upon the amount of money the state itself appropriates for the same purpose.

Although Illinois gets the largest amount there were only two other states in the union that built fewer roads during 1914.

Of course 1915 and 1916 have seen a great increase in state aid mileage in Illinois, and 1918 will see the expenditure of even more money.

10 CENT "CASCARETS" BEST LAXATIVE FOR LIVER AND BOWELS

Don't stay constipated, headachy, bilious, with bad breath or stomach sour.

No odds how bad your liver, stomach or bowels, how much your headaches, how miserable and uncomfortable you are from a cold, constipation, indigestion, biliousness and sluggish bowels—you always get relief with Cascarets.

Don't let your stomach, liver and bowels make you miserable. Take Cascarets tonight; put an end to the headache, biliousness, dizziness, nervousness, sick, sour, gassy stomach, bad cold, offensive breath and all other distress; cleanse your inside organs of all the bile, gases and constipated matter which is producing the misery.

A 10-cent box means health, happiness and a clear head for months. All druggists sell Cascarets. Don't forget the children—their little insides need a gentle cleansing, too.

Helpfulness.

You cannot help any one very much unless you can inspire him with the ambition to help himself, and that is why a good example is worth more than any other kind of assistance. Make right-doing so attractive in your own life that it will inspire the onlookers to do right.

Eggs

The egg is the worst shell game we have ever been up against.

There was a time when eggs were so common we trapped them in great numbers and ate them while they were still young. But that was before they invented cold storage.

In those days the elder eggs were utilized as an offensive—a very offensive weapon in the hands of displeased theatregoers. Today the only difference between the elder eggs and the young ones is ten cents a dozen.

Under present conditions it is free to all on any day of the year of us that while dead men may tell no tales, with eggs it's different. The egg today is a nomad. It travels from D. A. R. YOUNG ORPHAN GIRL

How She Was Cured. Had Headaches, Dizzy Spells, Awful Pains, Could Not Work.

Pittsburgh, Pa.—"I am an orphan girl, and when only seventeen years old had to support myself, but I would have such sick spells every month that I would have to stay at home from work, and I could not afford to do it. I also had headaches, dizzy spells and a pain in my side. My sister told me how much Lydia E. Pinkham's Vegetable Compound had helped her, so I began taking it. The result is I am now in good health and never lose a day from my work, and you may publish my letter to show other girls the good Lydia E. Pinkham's Vegetable Compound will do."—Miss MARIE SCHMELTZ, 34 Gardner St., Troy Hill, N. S., Pittsburgh, Pa.

OLD MAN OF 17 RETIRES

(By United Press)

London, Feb. 7.—Too old at seventeen, Gerald Harry Lloyd Verney, all one person, has lost his job as court page of honor. A much younger man, Richard Dawney, Jno. Dawney's son, now gets the job. He is only thirteen. The retiring page still retains some traces of youth—vigor, despite his age and expects to render his country further service before retiring to his country seat to spend his declining days. Gerald shares the fate of the Hon. T. H. Brand, whose advancing years forced him out at the ripe age of seventeen.

BETTER POSTAL FACILITIES

(By United Press)

Buenos Aires, Jan. 18.—(By Mail)—Better postal facilities between the United States and South America are declared by North American business men here to be one of the most urgent necessities today for the development of trade on the southern continent.

Mail order houses are pointed to as one class of concerns which might open a big field if the postal difficulty can be overcome. There is now no means for exchanging small amounts of money cheaply.

PREMIER GOING TO LONDON

(By United Press)

Ottawa, Ont., Feb. 7.—The Canadian Parliament is expected to declare a two months' vacation beginning today in order to permit the Premier, Sir Robert Borden, to go to London for the Imperial War Conference. The conference is called for the last of this month. The plans for the Premier's departure are naturally, kept secret.

EXPERTS GATHER IN CHICAGO

(By United Press)

Chicago, Feb. 7.—Engineers, architects, building material men, lumber dealers, contractors and building machinery men from all parts of the United States gathered here today to hold conventions simultaneously with the big cement show. Buildings cost about a billion and a half a year in this country.

PROHIBITION SCOREBOARD

(By United Press)

Washington, Feb. 7.—Senate passed a dry bill for voteless District of Columbia.

Territories committee recommended prohibition for voteless Alaska and Hawaii.

House Judiciary committee recommended passage of bill for constitutional prohibition amendment, which must be ratified by two-thirds of the House and Senate and three-fourths of the states. This would mean a dry United States.

"SAVE THE BABIES"

These are authentic quotations from the pamphlet on babies prepared by Dr. L. Emmett Holt of Columbia University and Dr. Henry L. K. Shaw of Union University.

A nervous, overworked, underfed woman cannot expect to have a strong child. Expectant mothers: Get plenty of sleep, with the windows open. Don't climb stairs. Don't run a sewing machine too much. Exercise in the open air is better than any medicine. Avoid violent exercise. Bathe daily. Drink lots of water. Watch your digestion. Wear loose clothing, hung from the shoulders only. Eat simple, wholesome food, not highly seasoned, nor rich, nor fried. Tea and crackers will not make milk and strength. More will be said about diet tomorrow.

Expectant mothers should eat: All kinds of soups. Fresh fish, boiled and broiled. Beef, mutton, lamb, veal, ham, bacon, chicken or turkey, once a day. One or two eggs a day. All cooked cereals with milk, cream and sugar. All stale breads, none fresh. All green vegetables and plain salads with oil. Plain custard or pudding. Also ice cream. No pastries. All ripe, raw and cooked fruits. Drink milk, buttermilk, cocoa, lots of water, about 2 quarts daily. Tea and coffee sparingly and weak, once a day. Don't touch alcohol in any form. (Tomorrow: Something about the baby's clothes.)

Phidian Art Club Meeting
The Phidian Art Club held a most interesting meeting at the home of Mrs. William Brinton Tuesday afternoon.
The meeting was opened by the president, Mrs. Forsyth. The reading of the minutes and the roll call followed. The recording secretary, Mrs. Trehon, announced that the president, Mrs. Forsyth, had been appointed chairman of the art committee of this district.
The question of the Art Extension Movement of the Art Institute of Chicago was discussed by the members, individually. A committee of five was appointed by the president for further investigation.
The report of the program committee was given by Miss Dyzart in the absence of the chairman, Mrs. Newcomer. The subject of South America was voted upon and accepted for the next year's study.
Mrs. Irving Hoefer gave the paper of the afternoon on Salt Lake City, telling the following interesting features:
The story of Salt Lake City is a chapter of Mormon history. On July 24, 1847, under the leadership of Brigham Young, the little band of Mormons reached Salt Lake. From the first the Mormons felt their little settlement would become a city and it was laid out as it remains today with its streets 132 feet wide.
In 1850 Utah was made a territory with Brigham Young its first governor. The fact that Salt Lake City was established by religious enthusiasts brought everyone and everything under the control of the church. Polygamy was the greatest blot on Mormonism, but of course, that is abolished now. The Gentiles now far outnumber the Mormons.
Temple Square is one of the most interesting features of Salt Lake City. Within its walls are the Assembly Hall, the Tabernacle, and the Mormon Temple. The interior of the Temple is not accessible to anyone except of Mormon faith. Two Gentiles were admitted to prove to the world that the interior was worthy of the exterior: one of the two, Dr. on people will be interested to know, was Mr. Burnett of New York, a cousin of Mr. Fred Dimick. The latest statistics give Utah the lowest death rate and the highest birth rate, of any state in the union.

Twelve miles northwest of Salt Lake City lies Salt Lake which was prehistorically a large fresh water lake. Now it is a small lake which is 25 per cent. brine salt, 500,000 tons of salt are sent out annually. There is no important city north of Salt Lake City to the Canadian line or south to Mexico.

Following Mrs. Hoefer's most interesting paper a social hour was enjoyed and delicious refreshments were served. Mrs. Bradford Brinton assisted the hostess in the serving.

Tickets now on sale for the D. A. R. Musicals at Kindergarten Hall, North Dixon School, Friday evening, February 9th. See Mrs. D. E. Raymond, Chairman of D. A. R. Music Committee.

NEUTRALS FEAR TO TAKE STAND

(Continued from page 1)

Spain and Germany. It is stated, however, that the note declines to suspend Spanish shipping, so that danger of an overt act by Germany will continue to be present.

Scandinavians See Danger.
Washington, Feb. 7.—At the Scandinavian legations the general view, in the absence of definite advice, was that the exposed Baltic frontages of these countries made their situation much more dangerous than that of America, which would tend to restrain them from any decisive action.

As a result of this attitude on the part of the various European neutrals, the best-informed Entente diplomats are inclined to believe that the American move will not be followed by these nations, although it is expected to exert strong moral influence on them.

Protest is Made by Holland.
The Hague, Feb. 7.—It is known that Holland has protested strongly against Germany's decree of unrestricted submarine warfare, but the press is silent as to the government's action. The foreign office refuses to give any details as to the course adopted by the administration.

The Nieuwe Rotterdamse Courant, while expressing the fullest confidence in the government, complains that the country does not know what is the standpoint of the administration. The Courant expresses surprise at President Wilson's statement in regard to other neutral powers following the example of the United States and asks whether the President's expectation is based on foreknowledge or merely supposition.

Envoy Told of Brazil's U-Boat Protest.
Washington, Feb. 7.—Brazilian Ambassador Da Gama received official information from his government that Brazil has protested to Germany against the unrestricted submarine warfare.

Argentina Will Remain Neutral.
Buenos Aires, Feb. 7.—Argentina will remain neutral and will not join the United States in severing diplomatic relations with Germany. The action was decided upon at a conference of President Irigoyen and his cabinet.

London, Feb. 7.—Fifteen ships with 47,580 tons aggregate were the toll of the first day of full-fledged U-boat warfare. The period of grace given by Germany to neutral shipping in the "barred zones" expired early in the morning and the day's havoc raised by the U-boats is believed to be indicative of the proportions to be maintained hereafter in Germany's campaign to starve out England.

The vessels sunk include seven British, five Norwegian, one Russian, one Swedish and one Spanish ship.

London, Feb. 7.—Eleven ships, one a passenger liner, constituted the day's toll of Germany's U-boat blockade. The total tonnage destroyed in twenty-four hours amounts to 35,654 tons. This added to the total tonnage sunk in the first five days of unrestricted U-boat warfare makes 77,541 tons destroyed in six days, or more than 12,600 tons a day.

Adelaide Largest Ship.
The largest ship sunk was the British passenger liner Port Adelaide, of 8,181 tons registered and owned at London. Ninety-six passengers have been picked up from the sea. The captain was taken prisoner by the U-boat commander. The loss of life incurred in the sinking of the Port Adelaide is unknown.

Other vessels sent to the bottom were: Floridian, British, of Leyland Line, 4,777 tons, hailing from Liverpool. Sixteen of her crew are known to have been saved.

Wartensfel, British, owned at London, 4,511 tons; was requisitioned by the British admiralty.
Farley Pickering, British, owned at Middlesbrough, 4,196 tons.

Was Brilliant Affair

The Individual Pleasure Club Annual ball of Tuesday evening was a very brilliant affair, the elaborate decorations in the club colors adding much to make it one of the prettiest parties of the season. The attendance was very large with many out-of-town guests and the music furnished by the Marquette orchestra was of its usual excellent order. Frappe was served during the evening by Miss Cook, the cateress.

J. M. Carll, formerly of this city and now of Chicago, visited in Dixon Tuesday.

Not mock—but matchless heating!

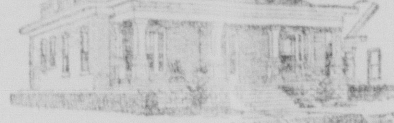

There is no "masquerade" about radiator heating—it is not the "imitation" kind of heat. **IDEAL-AMERICAN** radiator heating is *genuine*, reliable—always ready on tap. At a turn of the valve you save heat in any unused room or instantly flood the entire building with mellow, healthful, cleanly warmth—the *real* kind.

AMERICAN & IDEAL
RADIATORS & BOILERS

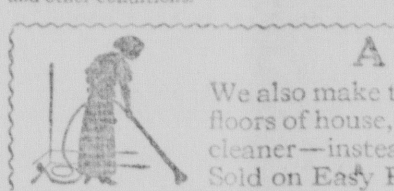

Quit the coal-scuttle habit and adopt at once this ideal cost-reducing heat.

The **IDEAL-SYLPHON** Regulator will operate the draft and check dampers automatically, so that *no more* fuel is burned than *exactly needed* to keep the indoor temperature *at the degree you want*.

In **IDEAL** Boilers there are no parts to warp, bulge, unriver or loosen; put together with iron-to-iron water-ways which are leakless—no packed or riveted joints. **AMERICAN** Radiators with their tightly screwed connections have no known limit of endurance. If you are using an old-time heater, you can have one of our modern outfits quickly put in without annoyance to occupants or interfering with present heater until new outfit is ready to fire. *Four cold months still ahead!*

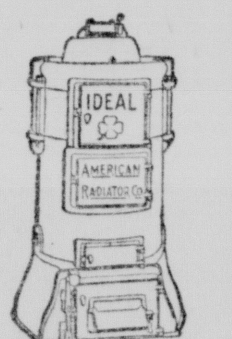

A No. 4-22-W **IDEAL** Boiler, and 422 ft. of 38-in. **AMERICAN** Radiators, costing the owner \$295, were used to heat this cottage. At this price the goods can be bought of any reputable, come-out-fitter. This did not include costs of labor, pipe, valves, freight, etc., which vary according to climatic and other conditions.

No exclusive agents
Sold by all dealers

A genuine, practical, built-in Vacuum Cleaner
We also make the **ARCO WAND** Vacuum Cleaner, connected by an iron suction pipe to various floors of house, flat, school, church, hotel, etc. No dragging around a clumsy, inefficient portable cleaner—instead you have a practical outfit that is a part of the building—like radiator heating. Sold on Easy Payment Plan, in sizes at \$175 up. Ask for catalog (free).

AMERICAN RADIATOR COMPANY

IDEAL Boilers will supply ample heat on one charging of coal for 8 to 24 hours, depending on severity of weather. Every ounce of fuel is made to yield utmost results.

CLEANSER YOUR HAIR MAKES IT BEAUTIFUL THICK, GLOSSY, WAVY

Try this! All dandruff disappears and hair stops coming out

Surely try a "Dandertine Hair Cleanser" if you wish to immediately double the beauty of your hair. Just moisten a cloth with Dandertine and draw it carefully through your hair, taking one small strand at a time; this will cleanse the hair of dust, dirt or any excessive oil—in a few minutes you will be amazed. Your hair will be wavy, fluffy and abundant and possess an incomparable softness, lustre and luxuriance.

Besides beautifying the hair, one application of Dandertine dissolves every particle of dandruff; invigorates the scalp, stopping itching and falling hair.

Dandertine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life producing properties cause the hair to grow long, strong and beautiful.

You can surely have pretty, soft, lustrous hair, and lots of it, if you will just get a 25-cent bottle of Knowlton's Dandertine from any drug store or toilet counter and try it as directed.

Garlie
A friend of ours named Schultz asks us what we think of "Tiz". "Tiz" is, Harry, we don't think of Garlie if we can help it. Onions are had enough, heavens knows. And Garlie is demoralized, onion. Garlie originated with the pirates who sailed the Spanish Main. Knives, daggers, blunderbusses, galie and other deadly weapons were common to them.

Garlie in the rough looks like a tulip bulb and smells like an Italian picnic. It is strung up in bunches in front of grocery stores. People who eat it ought to be too. A little Garlie goes a long way. Especially in a crowded street car.

Southern Illinois Pioneer Dies.

Dramatic Notes

PRINCESS THEATRE.

Tonight the Princess will present the popular star, Frank Mills, in a 5-act drama, "The House of Mirrors." Much unhappiness has been caused in the world through hasty judgment. Many families have been separated, when a word of explanation would have cleared up a situation where suspicion pointed to either a husband or wife. The habit of forming unjust opinions is forcibly demonstrated in the Mutual Masterpiece DeLuxe Edition, "The House of Mirrors," a drama of society in which Mills, the celebrated star of the speaking stage, plays the leading role, supported by a very strong cast.

FAIR AND WARMER.

"Fair and Warmer," that Avery Hopwood farce of infinite fame which ran so long and so successfully at the Eltinge theatre in New York and the Cort theatre, Chicago, that every part of the country was clamoring for it a good six months before Selwyn & Co. were able to put it on tour, will be presented at the Dixon opera house tonight.

It was by all odds the outstanding success of this season on Broadway, and it had the distinction of having been advertised, during that season only by its audiences. All the advertising which was planned for it before its opening was left on the shelf when "Fair and Warmer" made such a tremendous success on its first night that its second night and all nights thereafter were sold out well in advance. It was not until it was put on tour that it became necessary to advertise where it would appear and when.

A very good husband discovers that his charming young wife is by way of being a philanthropist. A very adorable wife, who lives nearby, finds at about the same time that her young husband is more gay than domestic. The ill-used pair make common cause of their misery, and vow to be wicked enough to revenge themselves. Since they know so pathetically little about the business of being wicked, they involve themselves in endless woes, and have their woes intensified by seeing their would-be victims go airily free. The three acts of "Fair and Warmer" have not a slack moment.

Ira Trostle of Franklin Grove was a business visitor Tuesday.

V. R. McCreery was a business caller in Sublette Tuesday.

"TIZ" FIXES ACHING, SWOLLEN, SORE FEET

How "Tiz" does comfort tired, burning, calloused feet and corns.

Good-bye, sore feet, burning feet, swollen feet, tender feet, tired feet. Good-bye, corns, callouses, bunions and raw spots. No more shoe tightness, no more limping with pain or drawing up your face in agony. "Tiz" is magical, acts right off. "Tiz" draws out all the poisonous substances which pull up the feet. "Tiz" and wear smaller shoes. Use "Tiz" and forget your foot misery. Ah! how comfortable your feet feel. Get a 25-cent box of "Tiz" now at any drugstore or department store. Don't suffer. Have good feet, glad feet, feet that never swell, never hurt, never get tired. A year's foot comfort guaranteed or money refunded.

VALUABLE ADVICE

Dixon Citizens Should Profit by the Following Statement

Doan's Kidney Pills were used by this Dixon resident. Their merit was shown—the story told.
Now comes further evidence. The testimony is confirmed. The remedy was tested—the results lasted.
Could Dixon residents demand stronger proof?
It's Dixon testimony. It can be investigated.

W. Walford, blacksmith, Peoria Ave., Dixon, says: "The kidney ailments were irregular in passage. My back ached, too. I used several boxes of Doan's Kidney Pills and the pains left my back and my kidneys became regular in action." Statement given May 21, 1912.

MILLIONS VOTED BY HOUSE FOR BIG NAVY

Machine and Anti-Air Craft Guns Among Items.

Washington, Feb. 7.—The house under stress of national emergency almost unanimously adopted Chairman Padgett's naval committee report, which appropriates additional millions of dollars for naval preparedness. The house acted in committee of the whole. This assures passage of the items. Included in the appropriations are \$1,250,000 for machine guns, \$1,000,000 for anti-air craft guns and ammunition at arsenals, \$5,581,174 for batteries for merchant auxiliaries, with \$7,281,941 for ammunition for the latter.

All the appropriations mentioned were "additional" for the regular appropriations, which total \$351,000,000 and were granted in the form of amendments. Other appropriations favorably reported to the house, and totaling about \$151,000,000, it was said may be withdrawn as amendments.

U-BOAT HOLDS UP OIL SHIP

Submarine Robs Tanker of Three Barrels Under Threat of Sinking.

London, Feb. 7.—The German submarine U-45 stopped the American steamer Westwego and only permitted her to proceed without sinking when that vessel acceded to the German commander's demands for three barrels of lubricating oil.

The American consul at Liverpool reported these circumstances to the American embassy here. The Westwego left Philadelphia on Jan. 31 and was carrying a cargo of oil.

26 MEN FALL INTO RIVER

Twenty-one Are Rescued After Spokane Bridge Collapses.

Spokane, Wash., Feb. 7.—Twenty-one of the twenty-six men working on the new Post street bridge spanning the Spokane river, just below the falls, when the structure collapsed late in the afternoon, have been rescued.

All went down with the bridge but escaped death in the wreckage and were taken from the river alive. Four bodies have been recovered and one man is unaccounted for.

TENNESSEE COLD KILLS FIVE

Blizzard Which Swept South Found Coal Mine General.

Knoxville, Tenn., Feb. 7.—After five deaths had resulted from the blizzard which swept over Tennessee in the last few days, some relief from the intense cold was apparent Tuesday and the mercury climbed slowly to thirty degrees. A score or more persons were badly frozen.

A coal famine exists in Knoxville, Chattanooga and other towns in east Tennessee. Suffering among the poor is very great.

IRON CROSS FOR BERNSTORFF

Kaiser Decorates Ousted Envoy for Services in Time of War.

Amsterdam, Feb. 7.—Count Von Bernstorff, dismissed German ambassador to the United States, has been granted the Iron cross with the white ribbon by the German emperor, according to a report from German headquarters.

This decoration is one conferred on civilians for services rendered in time of war.

Fail to Find Disabled Ship.
Halifax, N. S., Feb. 7.—Patrol boats which had been searching for the British steamer Retlaw notified the department of marine wreckage had been found east of Egg island, but that they had not located the disabled craft.

DEFINITION OF WORD IS POTENT

Eavestone Case Hinges on What Is a "Collier".

AMERICAN'S LIFE IS INVOLVED

Character of Boat on Which Baltimore Negro Was Employed Is Determining Factor in Case—"Collier" in England and U. S. Has Different Meaning.

Washington, Feb. 7.—The United States will determine on its own responsibility, and on investigations made by American officials what shall constitute the "overt act" violating Germany's submarine pledges which must precede open hostilities with Germany.

The United States will not be hurried into war on account of any occurrence which full and complete investigation does not establish as the "overt act" fixed by President Wilson as necessary before he will ask congress to authorize the "next step."

With these statements from the state department and the declaration from the White House that the principle and right, not "expediency," will control the administration in the present crisis, Washington once more settled down to wait and prepare.

Washington, Feb. 7.—A dispatch from Ambassador Page said the official press bureau in London reported the sinking of the ship Eavestone, but referred to her as "the British steamer Eavestone." Consul Frost's dispatch referred to her as a "provisional collier."

Officials pointed out that the term collier is used abroad as a general term for any fuel carrying ship, whether naval or merchant, while in the United States it is used principally to designate naval fuel carriers. It also was suggested that the word "report" might have been eliminated by skeletonizing the consul's dispatch, and that he might have referred to a "provisional report" on the sinking.

May Be Classed as Warship.
An official report on the sinking of the steamer Eavestone and the killing of an American seaman reached the state department from Consul Frost at Queenstown. The ship was a provisional British collier. Consul Frost's message said:

"Provisional British collier Eavestone sunk by shell fired from German submarine in vicinity of Fastnet yesterday (Feb. 4). American negro, able seaman, Richard Wallace, of Baltimore, killed during shelling of boat just after left Eavestone. Details not yet available."

Consul Frost's dispatch describing the Eavestone as a provisional collier leads to the possibility that the destroyer vessel might be classed as a warship. If at the time of the sinking the Eavestone was in admiralty service, no possibility of trouble with Germany on that score opens up.

Ambassador Page has been instructed to send on further details. In any case officials say it is doubtful if any inquiry will be addressed to Berlin.

Wallace Had No Near Relatives.
Baltimore, Md., Feb. 7.—Paul Black and "Ducky" Holmes, foreman for a cattle agent here, both of whom arrived at Newport News, Va., last Thursday, said that Richard Wallace was a close friend of theirs and that as far as they knew he had no near relatives. They said he generally lodged at one of the seamen's boarding houses on the waterfront here and that he gave Baltimore as his home when signing. He signed for the present trip at Galveston, Tex. Black and Holmes said their ship passed the Eavestone on their way back.

Salvation Army Prays for Peace.
Chicago, Feb. 7.—Commissioner Thomas Estlin, in command of all Salvation Army operations in and west of Chicago, has ordered a week of prayer throughout his territory, because of the gravity of the international situation. Prayers started simultaneously in San Francisco, Seattle, Minneapolis, St. Louis, Kansas City, Des Moines, Dallas and Honolulu.

Ends Life by Shooting.
San Antonio, Tex., Feb. 7.—Police are trying to establish the identity of a middle-aged man who shot himself while sitting on a bridge in the business district.

Fire Razes Cocoa Factory.
Jersey City, Feb. 7.—The manufacturing plant of the Brewster Cocoa company was destroyed by fire. The loss is estimated at \$75,000.
